## June 18, Arrow's *American Gigolo*

Arrow Video, with domestic sales and distribution expertise provided by MVD Entertainment Group, has a new 4K Ultra HD edition (from the original camera negative) of writer/director Paul Schrader's *American Gigolo*.

The street date will be June 18. A Blu-ray buying option will also be available on that date.

This was the film that moved Richard Gere's career from being an actor to that of a star, but it almost didn't happen.

## Film Chest's *Col. March*, Apr. 30

The Film Chest has scored a major coup with the announcement this past week that the ultra rare Boris Karloff ITV London television mystery series (1954/1955) titled *Colonel March of Scotland Yard*.

All 26 episodes will be presented as a three-disc DVD collection for amateur sleuths to enjoy on Apr. 30.

Based on writer John Dickson Carr's (aka: Carter Dickson) 1940 novel, "The Department of Queer Complaints," *Colonel March*

# The DVD Format Celebrates Its 27th Anniversary - A Review

In Hollywood, you know, "Tinseltown," birthday celebrations can be lavish affairs. So it was something of a disappointment when there was no star-studded parade down Hollywood Boulevard to mark the 27th anniversary of the DVD format, which made the so-called "Hollywood" studios (only Paramount is actually in Hollywood) countless billions of dollars.

They have all but abandoned it. DVD is an old, tired, worn out format that only gets a release nod from a "Hollywood" studio for a major new theatrical release or perhaps a MOD (manufactured on demand) recycled to refill popular catalog selections ... the glory days are but a distant memory.

The focus is clearly elsewhere. Hollywood has moved on (and perhaps, not to the better).

## The DVD Format 27th Anniversary\* Annual Release Output With Key Milestones

\* 27 years ending March 15, 2024

It would probably come as something of a surprise to modern day "Hollywood" studio executives that the latest 12-month cycle in the life of the DVD format was the busiest one yet. 27 years after the launch, a new record for the number of releases.

So what is it? Old, tired, worn out or on fire?

Perhaps a review would be in order to fully understand what has transpired over the life cycle of this transitional delivery system that replaced VHS and laserdisc for home viewing and collecting of physical media in 1997.

With great fanfare the revolution was to begin on Mar. 25, 1997 with the launch of 34 *See 27 Years Page 03* films on the newly developed DVD format — "Digital Versatile Disc" — from three sources,

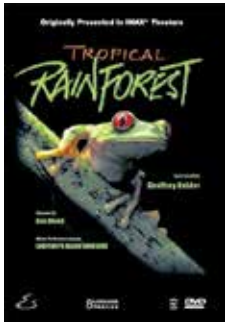

27 Years Continued

all controlled more or less by Warner Bros.

These would be MGM (distribution as the result of the Giancarlo Parretti/Kirk Kerkorian debacle in 1990), New Line (owned by Warner Bros.) and Warner Bros. itself under the guidance of the "Godfather of DVD," Warren Lieberfarb.

Included in the launch were such popular films as *The Wizard of Oz*, *Rocky*, *Singin' in the Rain*, *Blade Runner*, *The Road Warrior* and *The Exorcist*. An impressive selection of titles all packed in "snapper cases."

However, Mitch Perliss and his Slingshot Entertainment banner crashed the party on Mar. 19, 1997 with four titles — *Animation Greats!*, *Africa*, *The Serengeti – IMAX*, *Antarctica, An Adventure – IMAX* and *Tropical Rainforest – IMAX*. These were packaged in former Disney executive Ben Tenn's slim "hard" plastic cases.

This "birth date" does create some minor confusion. Each year, with the mid-March starting point, it means that the overlap encompasses two calendar years — 28 calendar years, but only 27 anniversaries, so we will refer to annual milestones as just "year" (and its number) rather than "2019/2020" postings.

So who came next? Former K-Tel executives Mickey Elfenbein and Philip Kives would be the next to enter the DVD market on Apr. 22, 1997 with eleven selections under their Simitar Entertainment banner.

Simitar had its own take on packaging. The DVDs were in a CD case, which came out of the bottom of a descriptive cardboard sleeve (gravity would often play a role in the CD case crashing to the ground).

The next wave (seven releases) from the original trio hit stores on Apr. 29 and it was at this time that Sony Pictures arrived with four films — *Fly Away Home*, *In the Line of Fire*, *Jumanji* and *Legends of the Fall*.

By Labor Day, Warner Music/WEA, HBO, Image Entertainment, Central Park Media, Artisan Entertainment, USA Home Entertainment, UAV, Universal Music/MCA and Elite Entertainment were on board.

The count on Aug. 31, 1997 stood at 180 DVDs.

On the lead up to Thanksgiving of 1997, several more companies made the plunge — Sony Music,

Master Tone, Geneon, Digital Disc, Tai Seng, D-Vision/Essex, Wellspring Media, MPI (a trio of Beatles selections on Nov. 14), Shanachie, Winstar, Troma (*Class of Nuke'em* and *Sgt. Kakukiman* on Nov. 18) and Universal (four films on Nov. 18, including *The Paper* and *Babe*)

By New Years Eve there were the likes of M2K, Anchor Bay (Dec. 2 with *Stepford Wives*), Walt Disney Studios (Dec. 9), American Gramophone, N2K Encoded Music, Passport International, Pioneer and Koch International.

The title count stood at 528.

During the first part of 1998 — on the run up to the first anniversary of the DVD launch — Madacy, Video Watchdog, Digital Multimedia and Front Row released their *See 27 Years Page 04* first DVD product offerings.

27 Years Continued

716 DVDs releases were in the marketplace at the end of year one.

Nowhere to be found among these pioneers were Paramount and 20th Century-Fox.

The product mix on the format's first birthday is worth noting. 51.5 percent of all of the titles released were Theatrical Catalog (movies prior to the launch of the format), with just 38 New Theatrical Releases (often marketed as day and date with VHS).

Holdouts "Hollywood" studios, Paramount and 20th Century-Fox finally gave in and joined the party during the fourth quarter of 1998. Paramount on Oct. 6, 1998 with four titles, including *Face/Off* and *Kiss the Girls*, while Fox waited until Nov. 3 with a contribution of three DVD releases, which included *Hope Floats*.

For the first nine years of the DVD format it was up, up, up in terms of the number of titles entering the market place. When DVD celebrated its ninth anniversary in March of 2006 the number of new releases had reached 15,020.

Something, however, was about to change ... the introduction of the Blu-ray format on June 20.

While DVD over VHS was a quantum leap in image quality and "things" you could do with a film, the introduction of the Blu-ray format was marginal in comparison. Storage capacity and better sound and image quality were noted, but for most consumers it was just "OK" as an upgrade.

By the end of the ninth year in the life-cycle of the DVD format there were 63,841 releases, with Theatrical Catalog — although still the leading category — dropping to 17.6 percent of the release pie.

One major change that should be noted during the first nine years of the DVD format was the realization that television series programming could be packaged and sold to consumers. VHS was a logistical nightmare for series programming, but on May 9, 2020 that all changed when

20th Century-Fox released the seven-disc collection of *The X-File: The Complete First Season*.

When the DVD format celebrated its ninth anniversary there were 1,666 multiple disc sets of television series programming in release.

Beginning with year ten, the numbers of new DVD releases each year crabbed sideways for the next 15 years. There was a distinct downward trend, slight, but nevertheless there. Up a little, down a little, but never matching the 15,020 record of the ninth anniversary of the format.

A low was reached in year 21 (ending March of 2018) with just 11,554 new DVD product offerings reaching the marketplace. It was clear, at this point in the format's life cycle, that DVD was on its way out. It was a good run, making the "Hollywood" studios billions in profits and making collecting of physical media (for more than just movies) a reality.

But wait, something begin to happen in the spring of 2021 as the format reached its 24th anniversary ... a growing surge of new titles; a revival.

Why? It is not an easy answer, but generally speaking the rebirth of the DVD format was sparked by a combination of market forces.

**27 Years Continued**

First, beginning in 2019 (in earnest) the “Hollywood” studios fell in love with streaming and cut back on the number of releases (which had been trending for some period of time) to focus on the new, bright, shiny toy (losing billions in the process). This lack of focus on physical media would create a void.

Second, the Covid pandemic struck in 2020 and the commitment to streaming (for all the stay-at-home consumers) picked up pace and anything related to DVD was just an afterthought ... however, the consumer hunger for collecting and owning physical media remained. This demand — a void created by the “Hollywood” studios — would be recognized and filled.

There was a third factor that had also been changing the face of physical media and that is manufacturing. This would be the switch from replicated DVDs (and Blu-rays) to MOD (manufacturing on demand).

The DVD format “flipped” in 2017 and for the first time there were more MOD releases than replicated releases ... Blu-ray would follow in 2021. The surge in MOD was a major factor in driving both Ingram (dis-

## Streaming • Covid • MOD

tribution) and Best Buy (retail) out of the market (not equipped to deal with this).

By the spring of 2021 the “Helper” community, my term for traditional pirates and bootleggers, began to recognize that the traditional “Hollywood” studios either didn’t care or just chalked up piracy of their intellectual properties to the cost of doing business. There was no enforcement ... everything was up for grabs without consequence!

The focus was on streaming, which, by its very nature, served up pristine masters to the “Helpers” (or void-fillers) ... a film streams and the same day it is available for purchase, it has gotten that sophisticated since 2020/2021.

Three major factors — Streaming, Covid, MOD.

The result: Year 25 (ending March of 2022) saw a new record of 17,406 DVD releases, which was eclipsed in Year 26 with 24,274 new titles. And, now the candles are lit for the 27th anniversary of the format with yet another new record ... 26,004 new DVD arrivals (perhaps peaking once again ... time will tell).

After 27 years there have been 327,534 DVD releases, with the catch all category titled “Special Interest” being the number one source for product, followed by Theatrical Catalog (15.8 percent of the release pie).

What is the future of DVD? If you looked around at year nine you might have said, “flat.” If you

look around now, you are not so sure. From a “Hollywood” studio POV DVD is dead, done, finished. From a consumer POV, it is an entirely different story. Buckle up and enjoy the ride.

## Sony Preps Two New 4Ks For June

Sony Pictures Home Entertainment has two new 4K Ultra HD releases ready for delivery during the month of June (maybe more as we move along).

June 11 has been circled on the release calendar as the street date for a 4K Ultra HD SteelBook edition of director Luc Besson's *Le Femme Nikita*. That's the first one; excellent choice!

It's rare that a foreign language action film becomes part of the popular culture, but Anne Parillaud's performance (along with Jeanne Moreau and Jean Reno) made this a keeper when it arrived theatrically in April of 1991 (1990 in France).

Indeed, Warner Bros. thought so much of the film that they made a domestic English-language remake in 1993 with Bridget Fonda in the lead.

The following week, June 18, Sony is back with a 40th anniversary 4K Ultra HD edition of director John G. Avildsen's *The Karate Kid* ... in retro VHS packaging.

## Unearthed's *Homework* Blu-ray, June 11

Unearthed Films, with sales and distribution support provided by MVD Entertainment Group, has locked into June 11 as Blu-ray debut date for director James Bershears' 1982 shamelessly exploitative comedy, *Homework*.

Critics can slam a film for being bad. There can even be legal action taken by some of the film's "stars" because the marketing of the film was something along the lines of a bait and switch scam — Marketing! Marketing! Marketing!!!

It doesn't matter! Only time makes a movie a fan's delight, dare we say, "cult." Such is the case with *Homework*, which was filmed sometime during 1980, but didn't see a theatrical release (and that was on a market by market basis related to limited prints) until the run up to Labor Day in 1982.

The film stars Michael Morgan as a high school named Tommy, who is frustrated over his lack of sexual "advancement." Morgan was a child actor, who had done small parts in episodic television, a few MOWs (*Go Ask Alice*, *Love is Not Forever*, *Addie and the King of Hearts*) and was now making his theatrical debut as a typical "Hollywood teenager" at the ripe old age of 21. See *Homework* Page 26

## Warner's *American Sniper* 4K, May 14

Warner Bros. Discovery Home Entertainment has tabbed May 14 as the street date for the 4K Ultra HD debut of director Clint Eastwood's 2014 Best Picture nominee, *American Sniper*, starring Bradley Cooper (nominated Best Actor ... one of six of his acting nominations to date) as Chris Kyle, a real-life Navy SEAL sniper who served four tours of duty in Iraq.

Bonus selections are seven vintage featurettes — "One Soldier's Story: The Journey of American Sniper," "Chris Kyle: The Man Behind the Legend," "Clint Eastwood: A Cinematic Legacy – The Heart of a Hero," "Navy SEALs: In War and Peace," "Bringing the War Home: The Cost of Heroism," "The Making of American Sniper" and "Guardian."

## Universal's *Lisa Frankenstein* On Apr. 09

Universal Pictures Home Entertainment moved director Zelda Williams' romantic horror comedy, *Lisa Frankenstein*, in quick step fashion from theatres to the physical media marketplace with the assignment of an Apr. 9 street date for both DVD and Blu-ray purchasing options.

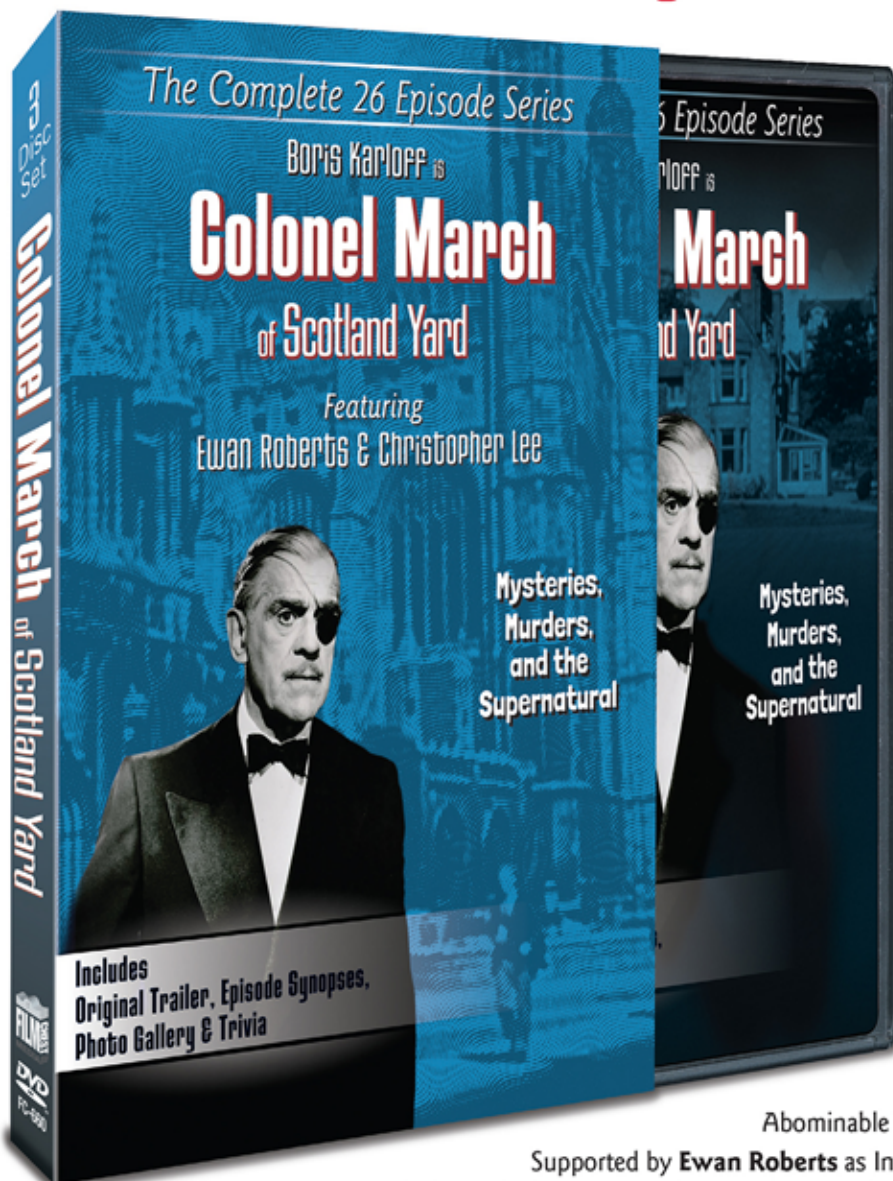

The ARR is a lightning quick 60 days (a premium VOD window was at 18 days) and the domestic box tally was \$9.2 million.

Bonus features include commentary by Williams, deleted scenes, a gag reel and a trio of featurettes — "Resurrecting the 1980s," "An Electric Connection" and "A Dark Comedy Duo."

**PRESENTS... COLONEL MARCH OF SCOTLAND YARD,**  
**starring Boris Karloff's Outstanding Portrayal**

The "locked-room" genre of murder mystery introduces the hypothesis of an impossible crime – a crime that defies explanation of a criminal entering a crime scene, committing a crime, and then leaving unnoticed. The deductive reasoning behind the solving of such crimes is generally reserved for those of the highest intelligence and exemplified well by the likes of *Sherlock Holmes* and the more contemporary *Lt. Columbo*.

Writer John Dickson Carr (aka **Carter Dickson**) was an expert in this "impossible crimes" category and wrote a series of mystery stories around a master criminologist named *Colonel March*, who was enlisted by British Intelligence to investigate unusual cases concerning the locked-room-murder-mystery-whodunnits... and the supernatural.

Enter **Boris Karloff** as the one-eyed Colonel March, who alone runs Scotland Yard's "Department of Queer Complaints," a term referencing extreme cases, considered unsolvable by the standard fare of British Intelligence. Karloff's Colonel March is a brilliant, slightly egoistical eccentric, an acknowledged genius who works on his own with no supervisor, and with whom the toughest, most bizarre cases land.

March's insight to solve the unsolvable is revealed in cases such as a man murdered by a disembodied pair of gloves and a séance that seems to have conjured a real spirit. You will bear witness to an investigation of a rare art piece called, "The Second Mona Lisa," that was supposedly painted six months after the first, and then, be immersed in an encounter with the Abominable Snowman, among many more.

Supported by **Ewan Roberts** as Inspector Ames along with an extensive cast of characters, Karloff's Colonel March stands the test of time with a performance that only Karloff can deliver.

The *Colonel March* TV series premiered first in the United States from December 1954 to Spring of 1955. Based initially on three pilot films produced in 1952, an additional 23 episodes were developed in 1953 creating the full 26-episode series.

*Film Chest presents COLONEL MARCH OF SCOTLAND YARD, the complete series from the early 1950's starring Boris Karloff in his outstanding portrayal of March, an unconventional criminal investigator that cracks difficult cases bordering on the x-files. Includes original trailer, episode synopses, photo gallery, and trivia.*

LEE GREENWOOD

**Arrow Continued**

Paramount had made a major announcement — hitting all the trade publications in early 1978 — that John Travolta, the star of Paramount's *Saturday Night Fever* and *Grease*, would be in the lead, even to point of decking him out in Giorgio Armani suits for a major photo shoot.

Instead, he backed out (for personal reasons), kept the Armani suits tailored for him and did a little film instead ... one that you might remember, *Urban Cowboy*.

In one of those “only in Hollywood” twists, Richard Gere was offered the role (after “Superman,” Christopher Reeve turned it down) for a fraction of Travolta's starring fee, but he got points (whether he collected or not is between him and the studio). His co-star, Lauren Hutton — fashion model turned actor — waited patiently for all this to be sorted out.

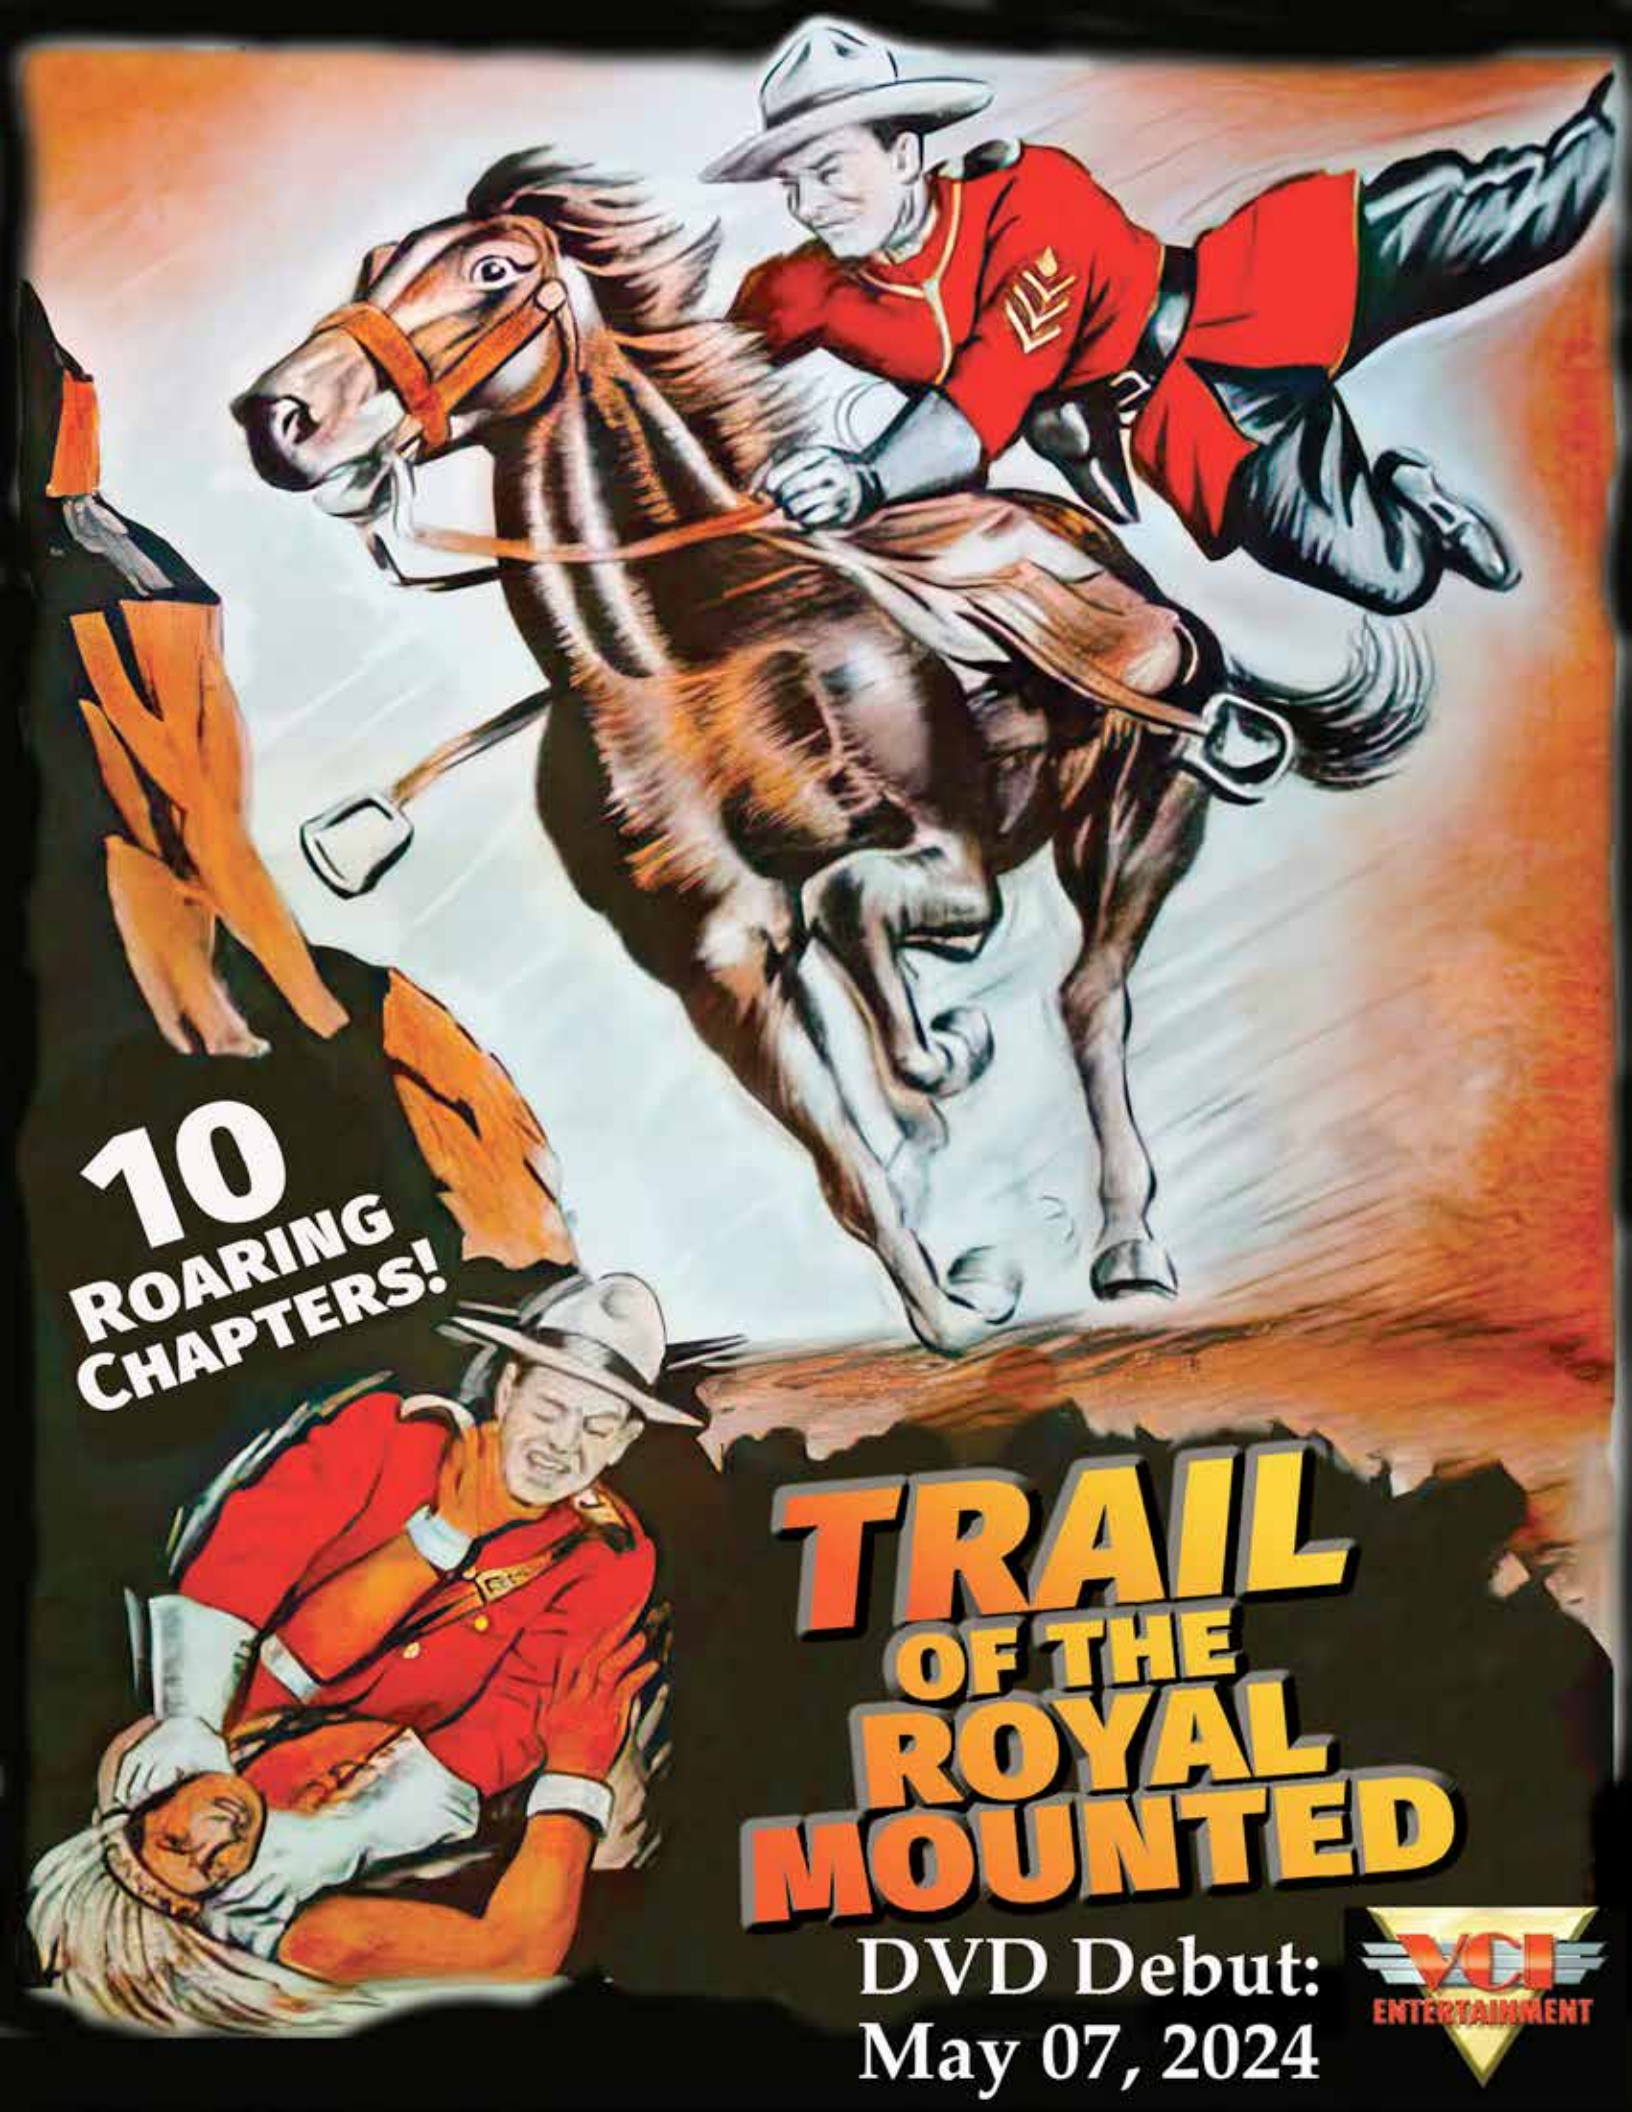

The film was a box office success and set Gere up for the lead in *An Officer and a Gentleman* (also from Paramount) in 1982 ... and, likely, all that followed, including *Pretty Woman*, *Primal Fear*, *Chicago* and more.

Bonus delights included with this 4K Ultra HD debut of *American Gigolo* are a newly prepared commentary option with film critic Adrian Martin, a new video session with filmmaker Paul Schrader and six new featurettes — “Six Ways to Sunday,” “The Business of Pleasure,” “Montages and Monologues,” “The Non-Conformist,” “Man Machine” and “American Icon.”

**La Femme Continued**

Bonus features include a new commentary track featuring *Cobra Kai* creators Josh Heald, Jon Hurwitz and Hayden Schlossberg, deleted scenes, the featurette titled “Remembering The Karate Kid” and over 30 minutes worth of newly discovered deleted scene “dailies.”

Other bonus goodie include a vintage commentary with Avildsen, actors Ralph Macchio and Pat Morita, plus writer Robert Mark Kamen and four archived featurettes — “The Way of The Karate Kid,” “Beyond the Form,” “East Meets West: A Composer's Notebook” and “Life of Bonsai.”

**Karloff Continued** of Scotland Yard (Karloff) is assigned the task of solving mysteries that have baffled law enforcement.

This was certainly an odd duck. No less than three pilots were filmed in effort to pitch the series. And, since nothing would possibly go to waste, director Cy Endfield (*Zulu*, *Mysterious Island*, *Tarzan's Savage Fury*, etc.) had the three pilots edited into a feature length film titled *Colonel March Investigates*, which was released theatrical in the UK during the summer of 1953.

This is *X-Files* before there was such a thing. Mysteries that cannot possibly be solved ... but then there's Colonel March.

Be sure to check it out Apr. 30.

**Homework Continued** Meanwhile, legendary British actress Joan Collins took a small acting gig (day work for a \$25,000 fee) in *Homework*, which was billed to her as something of a mentor to the confused teen. A few days worth of filming and then she moved on.

What she moved onto was a starring role as Alexis in the primetime soap *Dynasty*. She was electric and the ratings went through the roof.

*Homework* finally gets a limited theatrical release in late August of 1982, timed to take advantage of the next season of *Dynasty* — which would begin airing in late October. Collins was red hot, and suddenly her minor role in the film had been “tweaked” a bit (body double, sex scene, etc.) and she was featured on the film's theatrical poster and in all of the advertising. Marketing!!

That's Hollywood, babe! Can anyone say “lawsuit?”

*Homework* was released on DVD way back in 2002, so for many this Blu-ray edition from Unearthed Films will be the first opportunity to enjoy this “sexploitation” gem.

Bonuses include a vintage video session with producer Max Rosenberg, who is best known to genre fans for his '70s horror films — *The House That Dripped Blood*, *Tales from the Crypt*, *The Vault of Horror*, *And Now the Scream Starts!*, etc.
